

SmeargleUsedHex

By the way, not related to anything, but nice profile picture.

jadedResearcher

:) :) :)

i feel like it fits the "shambling horror" part of the zampanio legends, thank you

jadedResearcher

oh right!

someone remind me to summarize cathulhu's account into breadcrumbs later

(hope they're okay)

lionfish1212

what does meteors mean in the rules channel? O_o

arcaneArchivist

pretty sure its a reference to the meteor shower part in zampanio? then again i'm starting to doubt that i actually played the "real" version if that even exists :P

attendantWatcher

It is a TTRPG term for the GM summoning a meteor to retaliate against a very specific player over some slight, I think

jadedResearcher

lol sorry ill change the language but yeah essentially "rocks fall, everybody dies", its a refrance to another fan game i made

lionfish1212

o.o okay!!

jadedResearcher

plus yes, Zampanio ref from a meme i found

lionfish1212

like the meteor shower scene?

that didnt hurt anybody though it was just pretty

jadedResearcher

noted!

the memes i had found (where did they go ...) probably were joking and making them seem more dangerous than they were then

lionfish1212

everyone has different memories of the game though so i dont know... lots of people didnt have mermaids

which is sad because i liked that!!!!

SmeargleUsedHex

Mermaids?

attendantWatcher

Mermaids might have been procedural.

lionfish1212

when i played zampanio it was all about an underwater princess knight and stuff!! i'm writing it down so i can put it in testimonies

it was suuuuper fun

lionfish1212

is this the right place to play forum games too?? i miss those a lot

especially since the whole forum's here

jadedResearcher

feel free, ive long since accepted no discord server can stay entirely on topic

lionfish1212

lets play my wish is ruined!!

(if you dont know how to play, you twist the person above you's wish so it's actually bad, and then you make your own wish)

i wish that i had a bowl of ice cream

jadedResearcher

you get a bowl of ice cream, and thats how you find out you are allergic to milk
(like that?)

lionfish1212

that's perfect!! now you make a wish

jadedResearcher

i wish i could find a cache of that dead Zampanio faq i found a few months ago

IronicOrnithologist

You find it and it turns out to be haunted

You have to eat keyboards like that one TMA episode

jadedResearcher

lololol

lionfish1212

you have to wish too to keep it going o.o

IronicOrnithologist

I wish for fire

lionfish1212

granted, but you get stuck in it and get burnt!!

i wish i had an aquarium

IronicOrnithologist

The aquarium is now on fire

lionfish1212

D:

IronicOrnithologist

I wish for fire

attendantWatcher

Your wish is granted by an eardrum-rupturing strike of lightning next to you. I wish for a respite of 24 hours from all the pressing issues.

[lionfish1212](#)

granted, but you're in a coma for 24 hours! i wish that all cats could talk.

[IronicOrnithologist](#)

All cats hate you

:Jose:

jadedResearcher

i read a story like that once

someone could talk to animals but it turned out all animals hated her, personally

[IronicOrnithologist](#)

Wow

What did she do to deserve such rabid hatred?

jadedResearcher

it wasn't a very good story, it was just like "man curses be like that"

the part that stuck with me is the animals didn't like, do anything different

[IronicOrnithologist](#)

Lazy

jadedResearcher

things just like , a cat rubbing itself on you seems affectionate until you hear the constant running commentary about how you stink and every bit of your presence should be erased

it was unexpectedly savage for a childrens story

"what if the things you parse as good and friendly are secretly everyone hating you"

[IronicOrnithologist](#)

How to speedrun anxiety

jadedResearcher

tbh hearing that we have some "zampanio kids" in this server feels a bit like that to me?

so many kids things are unexpectidly savage like that and i've been operating under the assumption zampanio is ALSO an anxiety speedrun but maybe not? or maybe not if you're a kid?

lionfish1212

kids at school are a little bit like that yeah.....

aurora borealis

oh yeah before i forget does Aurora frequent this server?

they used to talk a LOT about zampanio but i havent heard from them in a while

jadedResearcher

no one here with that handle, but ppl change identities so often thats not conclusive

aurora borealis

ah rip. thanks anyways

IronicOrnithologist

Who is Aurora?

Also anyone here from the Donaldist side of things?

lionfish1212

whats that

also was aurora on the forums because i think i remember a name like that a while ago!!! could be something else though

aurora borealis

buddy from high school before i moved. really good at fighting games. beat gramps once even

its not a big deal i think, just worried is all?

IronicOrnithologist

Donaldism?

The study of Donald Duck?

lionfish1212

huh

thats weird!

IronicOrnithologist

Uh

Rude

:AngryDonald:

lionfish1212

oh :(

aurora borealis

so im going to visit gramps tomorrow and i can look through his collection then

but like. i dont understand how its organized. definitely not alphabetical

did zampanio have any box art?

lionfish1212

the disc was kind of colorful i think? it wasnt in a box

aurora borealis

ohhh no its gonna be scratched up :C

lionfish1212

D:

aurora borealis

maybe he burnt a copy of it and put it in the CD holder

ill see i guess

jadedResearcher

(no clue about box art, if you find any def show us)

(ive always heard of it as cracked downloads, a physical copy of the original might be worth money)

aurora borealis

downloads??

i dont know a lot about video games aside from street fighter, but downloading a whole game has gotta take forever right

attendantWatcher

Depends on your internet bandwidth.

aurora borealis

my what

attendantWatcher

your "how fast your connection is" parameter

lionfish1212

but a parameter is in geometry

lionfish1212

also are the storms really bad for anyone else?

attendantWatcher

What storms...

lionfish1212

maybe they're not over your area

it's been better in the summer

aurora borealis

weathers great along the florida coast right now, hoping things clear up for you soon though

lionfish1212

florida???

hope you're safe

usually you get hit bad

TunnelGhost

well well well, what have i just so happened to find

i checked out my archive of ROBLOX related media and it turns out the farthest back videos and images are from 2013.

this video is my oldest. kinda wonky due to the way i had to convert it, but check it out.

gotta fix it. sorry about that.

i'm not sure why roblox decided to record videos in such a janky format but it sure makes it harder to share stuff.

nope, okay, let's see if there's other formats i can convert it to that work.

TunnelGhost

hah, that time it ended up making a video file that, when i opened it, said it was over 100 hours long. what the hell!?

gonna have to shave off some file size, this might end up a little crunchy...

BINGO!

[a short video of roblox gameplay, it's underground narrow corridors]

so, i need to reiterate, this is the OLDEST video i have of myself playing roblox.

what's really interesting is i think i know what game this is, and it's VERY similar to the one that i played that was linked to Zampanio!

i can't remember this game's name though, but i know for a FACT that it's part of that myth network game i was talking about in testimonies

the only reason this video is particular important to me is because 1: it's my oldest and 2: the similarities to the zampanio game i mentioned.

oh, excuse me, roblox calls them "experiences" now :P

i probably have more videos like this, but it's such a hassle to convert them! if any of them are relevant to Zampanio i'll try to post them, though.

TunnelGhost

Aldacre!

jadedResearcher

oooo

lionfish1212

hey, is there an area for talking about zamp fandom things? i don't want to clog your fancy red string with my chattering XD

jadedResearcher

oh thats a good point!

how about zampanio-fandom @lionfish1212

lionfish1212

oh!!

SmeargleUsedHex

I have a lot of catching up to do.

By the way, new profile picture!

https://media.discordapp.net/attachments/525181365616902165/888220223201771610/download_2.png

I'm pretty proud of it.

lionfish1212

o_o its been raining all day from the storm

i like rain but im kind of over it

lionfish1212

i figured out how to scroll up the hashtags list muahahaha >.> it hasnt stopped storming though

apparently you can see the clouds go in a circle from the hurricane

jadedResearcher

ominous

lionfish1212

is it not where you live?

sandy's a big deal

jadedResearcher

nope but im p inland

jadedResearcher

wait...sandy?

lionfish1212

yeah?

maybe its not in the news on the west coast ._.

or in other countries i guess

I SING THE TRUTH

lol like the West Coast cares about the rest of the 'States

lionfish1212

my friend said that their hurricanes are called cyclones

I SING THE TRUTH

Must be on the Pacific then.

I forget what Hurricanes are called on the Indian

IronicOrnithologist

?

I SING THE TRUTH

Hurricanes are called by different names depending on what ocean they originate in

Atlantic is Hurricane

But I forget what it is for the Pacific and Indian

[IronicOrnithologist](#)

Oh I thought you were talking how they were named

[lionfish1212](#)

no it's in the atlantic

i live on the east coast

definitely a hurricane

[IronicOrnithologist](#)

I think you have the wrong hurricane name

Sandy was a while ago

They had a whole Cake Boss about it

I SING THE TRUTH

Sandy? Wasn't that in '12?

Or are they reusing the name already?

[IronicOrnithologist](#)

You know with how things have been

They honestly might as well

I SING THE TRUTH

Fucking, maybe there's been so many hurricanes that last few years that they went through the list quicker than expected

jadedResearcher

i thought they didn't reuse the major names

[IronicOrnithologist](#)

Sandy 2

I SING THE TRUTH

I thought so too? But I can't remember how severe Sandy was

[IronicOrnithologist](#)

Bigger and wetter

I SING THE TRUTH

Before '16 my memory just fucking stops

[IronicOrnithologist](#)

They didn't evacuate people I think

[lionfish1212](#)

it's 2012..... o_o

are you roleplaying

it didnt say that anywhere -_-

[IronicOrnithologist](#)

...

JR

We have a troll

@jadedResearcher

[lionfish1212](#)

????

i'm really confused right now

jadedResearcher

im gonna rule that if they aren't spamming or breaking the rules they're not a troll

but if they wanna larp thats cool with me

[lionfish1212](#)

i dont even know what a larp is!!!

I SING THE TRUTH

Gonna be honest, after '20, '12 doesn't seem that bad.

aurora borealis

a kind of bird i think?

[IronicOrnithologist](#)

That is a lark

Bad dum tish

I SING THE TRUTH

What if a lark were to larp?

aurora borealis

no a lark is what you do with your eyes

jadedResearcher

no thats a look

aurora borealis

thats what you use to secure doors

I SING THE TRUTH

Isn't that a lock?

[lionfish1212](#)

guys..... i just wanted to talk about zampanio and its really weird here

its scary ;-;

jadedResearcher

sorry sorry its a meme

and no locks are what you do with your tongue

aurora borealis

yeah, im just joking around. wordplay is fun. sorry

I SING THE TRUTH

unsettling licking noises

lionfish1212

like grumpy cat?

jadedResearcher

rip grumpy cat

aurora borealis

yes like grumpy cat

lionfish1212

or gangam style!!

also grumpy cat isnt dead!!!!

i hope not.... i havent heard that

I SING THE TRUTH

Grumpy Cat will forever be honored

o7

IronicOrnithologist

F

Krysal Tepsyr

oh dear i feel like either im old or ive been living under a rock.

aurora borealis

dont know what you're talkina bout grumpy cat is iconic. delight of my face book feed

Krysal Tepsyr

nah, i recognize grumpy cat

just feels like its been so long

feel old.

aurora borealis

what does "o7" mean? is it like. a really long acronym of 7 words starting with "o"

Krysal Tepsyr

its a salute

the o is the head and the 7 is the arm

lionfish1212

ive never seen that!

Krysal Tepsyr

you will in time

:)

lionfish1212

what?

Krysal Tepsyr

i mean, you said you're from, what, 2012?

maybe you'll see it more

in the future

you know

lionfish1212

you all talk about it really weirdly like you're mysterious and everyone else says i'm a larp

Krysal Tepsyr

dont worry about it

lionfish1212

...ok.....

Flippet

huh.

i don't know what year it is.

never thought about that.

[SmeargleUsedHex](#)

Really, does anyone?

Time is dead and meaning has no meaning. Better get used to it before it gets used to you.

Flippet

^-^

[SmeargleUsedHex](#)

Hey, don't blame me for being right.

Flippet

eh. it's all subjective anyway.

aurora borealis

would recommend getting a watch

[IronicOrnithologist](#)

Time is dead and I killed him

Fist fight in the parking lot

I won

Obviously

jadedResearcher

or did you:ey3p3nsiv3:

maybe youre a ghost

[IronicOrnithologist](#)

No I'm very alive

Time can suck it

jadedResearcher

maybe we're all ghosts except you

IronicOrnithologist

Yes

jadedResearcher

and time is dead

IronicOrnithologist

All of you died like cowards

lionfish1212

o_O

O_o

aurora borealis

bluhhh guess i'm not going to gramps' place after all. i'll try again soon. sorry folks

jadedResearcher

no worries, stay safe

lionfish1212

thats too bad!! :(

lionfish1212

i think this is right?

is this general

Krysal Tepsyr

yep!

I SING THE TRUTH

ye ur here

lionfish1212

yay!!!

Krysal Tepsyr

alright

anyway. yeah. i've been collecting uh.

stories for a long time

and i found a bunch that just seem to fit together well

I SING THE TRUTH

The Library of Krysal

lets goooo

Krysal Tepsyr

dunno if zampanio'll be like that but it could be, who knows.

lionfish1212

are you a librarian?

Krysal Tepsyr

not exactly, no.

just someone who constantly looks for knowledge.

i just like figuring out things about what seems to be this bigger world.

like seein' how it ticks.

lionfish1212

are you a clock maker?

Krysal Tepsyr

hmm

i've made a couple, but it's not something i do on a regular basis

J v a k Q t R

Quick question-Did anyone else come here hoping to get a copy of the game?

jadedResearcher

i mean i literally started the server with that hope

or at least a link to a faq i found and it immediately vanished

J v a k Q t R

:(

I was hoping to get a copy of it without contacting my brother. Now I wonder if it's possible to get a copy at all

Krysal Tepsyr

so far i haven't been able to find an original copy, but imma keep digging

if anybody can find (and then win) some seemingly impossible to find game by sheer force of will it's probably me

jadedResearcher

do you speak italian krysal?

Krysal Tepsyr

for the past uh

how long again

fuck i can't remember.

jadedResearcher

oh wow then yeah if you get a copy you'll be invaluable

imagine getting the ACTUAL real translation of the game

instead of all the shitty fan cracks

Krysal Tepsyr

look i've had to sit here and translate french from a cat lady and russian from another lady for who knows how long

i'm sure if the game ends up in my hands

i'll figure out how to read italian

or maybe i'll make myself the time to learn it.

it will not be a problem.

jadedResearcher

nice

i knew this server was a good idea

lionfish1212

are you in a cat lady mailing list with french and russian people

Krysal Tepsyr

no, they're just friends.

one just happens to speak predominantly french, and the other pretty much only speaks russian.

think she only spoke english for a short bit recently.

lionfish1212

you have strange friends

Krysal Tepsyr

i sure do.

lately some of em haven't been getting along well

i'm worried about em, honestly, but i've got my own things to do, bigger things to worry about

gotta keep everybody safe, yknow?

keep things movin.

lionfish1212

my friends are like that too

two of them have a crush on the same boy and i dont really care

and they're really mad about it all the time and it just makes me sad because like

who really cares about boys? we can just all be friends....

Krysal Tepsyr

mm

yeah...

Krysal Tepsyr

been looking through my notes again

lion, you ever hear stories about snake people?

lionfish1212

it rings a bell.....

but barely

Krysal Tepsyr

besides those conspiracies that i know a lot of people have heard about "ooh, snake people run the world" or something

lionfish1212

i havent heard those

Krysal Tepsyr

eh, those conspiracies are nonsense anyway

there are far better choices.

SireKardis

I thought it was a different reptile

Krysal Tepsyr

depends where you are

i've heard some people talk about snakes, some about lizards, i know some even talked about there being like, dragons hiding among society in a human form.

but yeah. i know a lot of little stories about these people who are like. half snake tree people.

same place i heard about the big geese, actually

now that i think of it, that story... huh.

maybe i can find more connections between it and zampanio...

SireKardis

Good luck!

Krysal Tepsyr

thanks.

maybe i'll look through my tapes again

see if i can find any tidbits

lionfish1212

oh are you an old person who hasnt switched to cds yet

how do you watch your movies

Krysal Tepsyr

pff. old, perhaps, but i have media on all kindsa things here.

happen to be a bit of a collector. been gathering up all these tapes. got boxes of the things. every so often i just happen to find a new one or three.

lionfish1212

at yard sales and stuff

that makes sense

Krysal Tepsyr

yeah, definitely.

lionfish1212

what else do you get at yard sales?

Krysal Tepsyr

uhh lets see.

got this really nice couch. one'a those leather ones.

had it for a while, used to be me and my best friend's favorite place to relax

lionfish1212

comfy!!! >.>

Krysal Tepsyr

definitely been well loved at this point

it's always in just the right spot when we need it.

lionfish1212

magic couch.....

Krysal Tepsyr

absolutely magical

lionfish1212

wow

Krysal Tepsyr

we still don't know how it does it

i mean

we do, we put it there

but, yknow. definitely confuses other people sometimes.

"why did you put it there?"

it's just the right spot, man, don't question it.

it's just comfier there.

lionfish1212

like in the middle of your house

i want to have my own house so i can put furniture in places

Krysal Tepsyr

yeah

it's fun. do recommend.

Daedalus

So yeah.

During The Way Ahead quest, I thought it was going to lead me to Al'Daric, but instead things keep changing. There was that one reference during the second stage that made me think I was on the right path, but then it turned out to be Vis'Daric instead?

I tried checking the subreddit but wasn't too helpful

jadedResearcher

yeah the subreddit is dead as hell

and honestly, with how much zampanio varies there's a solid chance you'll never find anyone who played the same arc as you to get help

Daedalus

Like there was one post that helped

jadedResearcher

yeah?

Daedalus

Yeah

attendantWatcher

Divergent evolution hard at work...

Daedalus

It helped me figure out the right Path

Did anyone else get the glitch path, I'm curious? Or was that just exclusive to my run.

jadedResearcher

I've heard of a lot of glitch paths being possible

some people get builds that do nothing but crash, even

Daedalus

I mean the charlim one

It gave me a note-taking ability which is super useful but also seemed kind of overcosted at first

I suspect it might have locked me out of Common Knowledge but I'm not really sure, either.

None of the NPCs had any useful input

jadedResearcher

oh man yeah the seemingly mundane early abilities really scale well later on

that seems to be pretty universal

any naems you remember for npcs? ive got a file going trying to list out the variations

Daedalus

My primary abilities originated from it and firestarting, yeah. Mana Manip was also big, but not my primary

Let me think...

Lesana? Lisana.

Tara

Rashin

Lefi who I think might be Loki in disguise but I'm not sure

More recently we had Othniel Hawizek and Shalob Cope

Daedalus

Ooh!

So section 31 of The Way Ahead quest, if you ask "What color is the shade of Disbelief" you unlock a hidden questline

jadedResearcher

do you get to actually type in your questions, or is it more from a list, in your playthrough?

Daedalus

I had to type it out

It was quite the labyrinth to figure that out, let me tell you

If it doesn't work, try opening up the command log for the game and entering it there

J v a k Q t R

So okay still glancing around and re-reading testimonies and from what I'm seeing no one else found like, the actual content of the game.... sad or eerie?

Like Idk that's the vibe I remember but everyone else's experience seems so different.

Like this slowly building dread.

Idk what was the vibe the rest of you got from your experiences?

Daedalus

Nah, mine was closer to a... not exactly idle game, but I did appreciate how you could automate grinding in-game

I'd frequently set it up with a task and return later when it was completed

J v a k Q t R

That just sounds so different...

Daedalus

I mean, it was kind of sad, but not in an eerie way

J v a k Q t R

Maybe these weren't really versions of the same game, but zampanio was like... a company or developer or something?

Daedalus

Just a sort of "aw, those poor people" way

J v a k Q t R

Or some kind of an umbrella... label for different games

I'm trying to look up your testimony now daedalus

lionfish1212

when i played i remember it being bittersweet

but i was really little so i dont totally remember all the nuance and stuff

like coming back to a book and realizing there's more to it

J v a k Q t R

Maybe the sense of dread was more my own and my brother's anxiety issues kicking in

But I definitely remember a sense of sadness

lionfish1212

the ending was super sad

J v a k Q t R

Okay I just re-read your testimony lionfish and what was sad about the ending?

Genuinely curious--I didnt see the ending of my game

You say you defeated the bad guy but...?

lionfish1212

you defeat the bad guy but you have to sacrifice the well being of the mermaid city

the ending cutscenes are all rubble and rebuilding and things

there is no magic for a month

J v a k Q t R

Ahhhh

When you talked about rebuilding in your testimony that sounded hopeful to me but I guess that does sound sad... destruction of something beautiful I guess?

lionfish1212

i think so

it was a long time ago

i mostly only remember the end because it happened in india too

J v a k Q t R

India? Huh

lionfish1212

yeah! its really weird

jadedResearcher

:eyes: :eyes: :eyes:

guys

the other Zampanio server?

just went from read only

to THIS

what the actual hell

SmeargleUsedHex

Oh, dear.

jadedResearcher

i didnt even know discord could LOOK like that

is it a glitch???

SmeargleUsedHex

Hell if I know.

jadedResearcher

theres not even a channel name

BUT i managed to scrape off a powerpoint from it before it died

<https://docs.google.com/document/d/1KcQHjzvtV9F6pE8Z4Fu1cdxTI5--GmLWbvIA/edit?usp=drivesdk>

tada!

SmeargleUsedHex

Also, sorry I haven't been active much. I've been trying to decrypt a small collection of files that refuse to be decrypted.

I'm totally not bad around large numbers of people and not at all nervous about there suddenly being a ton of them here.

Anyway, cool powerpoint!

Jokes aside, I think your link is broken.

jadedResearcher

ohdhodf youre right, hold up, lemme try again

SmeargleUsedHex

Did you turn on sharing via link?

jadedResearcher

its definitely not private...

SmeargleUsedHex

I've forgotten that a few times.

jadedResearcher

plus thats a diff error, i think, than private

okay trying again

<https://docs.google.com/document/d/1KcQHjzvtV9F6pE8Z4Fu1cdxTI5--GmLWbvIA/edit?usp=drivesdk>

gah still broken

okay

maybe its a google problem?

maybe itll work later?

except this is my account

i copied the file over

and i can read it???

SmeargleUsedHex

Are you sure you're getting the link right? Not just copying the page URL, getting the "share file" link?

jadedResearcher

im sure, let ne confirm with a diff file

Daedalus

It's working for me?

Doesn't have anything to do with the game, though

It's just a picture of a golden retriever

SmeargleUsedHex

What?

Daedalus

~_(\ツ)_/~

jadedResearcher

https://docs.google.com/document/d/1JAq9Opnr-DftOqzWgkP4hUi_qLX34UGX4p9CG16ltVU/edit?usp=drivesdk

Google Docs

test

complete unrelated to any sufficiently obscure games, hi hex

can yall see that?

Daedalus

Yeah

It's a google doc

jadedResearcher

but not

<https://docs.google.com/document/d/1KcQHyjztV9F6pE8Z4Fu1cdxTl5--GmLWbvIA/edit?usp=drivesdk>

whats the first doc say for you daed?

Daedalus

It's just a picture

SmeargleUsedHex

I think Google is trolling you.

Daedalus

Here, I'll see if I can send a picture of it

Golden retriever with a stick

jadedResearcher

no i mean the second link

hex can you see the non Zampanio link?

Daedalus

There

jadedResearcher

thats a balloon???

Daedalus

'this is a game for hex' is what I see in #2

SmeargleUsedHex

Yeah, I see it.

SmeargleUsedHex

Also, what the fuck?

Daedalus

Puppy!

It is a great dog picture, I will agree

SmeargleUsedHex

Are you ok?

Blobbin

Why did you just send a picture of a city skyline? It looks cool, but it's definitely not a puppy.

Daedalus

Probably

SmeargleUsedHex

Jesus christ.

jadedResearcher

okay SO getting distracted

if googles gonna fuck up, fuck it:

would ppl be free, maybe tomorrow to jump into vc? i can screenshare the power point, see if that holds up

SmeargleUsedHex

Laser point. Ha.

Blobbin

What time? I'm in BST if that helps.

Daedalus

I will probably be free?

What are we talking about again?

Blobbin

Vcing to screen share the PowerPoint

jadedResearcher

30 hours from now?

Blobbin

Because Google docs hates us, apparently

Daedalus

Powerpoint of what again?

jadedResearcher

PowerPoint on a buncha zampanio stuff, i scraped it off the other discord before it glitched out

Blobbin

Awesome!

jadedResearcher

i can do anytime between 30 hours from now and 35 hours from now

else we can wait for the weekend

thats tomorrow at this time plus 6 hours

till now tomorrow plus 11

(talking timezones stops working once daylight savings goes weird so i just do relative time only)

Daedalus

Fair enough

But what was in the other discord?

Like mainly I just don't track why upi

why you'd need to look up so much stuff

Or is this on other paths and quests?

Blobbin

I can probably do 30 hours from now, but not much later.

jadedResearcher

i can do a bit earlier if needed , but it'll be tight

and daed, there used to be another Zampanio discord server but uts locked to read only

they have a LOT of info about the game thats not anywhere else

had

Blobbin

Typo in the group chat

gone_farther

Grow up.

IronicOrnithologist

I'm sorry you got offended by the traditional response to a typo

gone_farther

Dear heart, that isn't the standard response to a typo on this very server.

Grow up.

IronicOrnithologist

I'm sorry?

attendantWatcher

As far as I have heard it's an universal response and you better get used to it demeter'd

[IronicOrnithologist](#)

Never visit another discord server

You might get confused by the different customs

But you seem to be the type of person who doesn't understand the difference between something being ethical and something being moral, yet you pontificate about how smart you think you are

Your takeaway from the Greeks were the names of their gods, not the lessons they were trying to teach

[lionfish1212](#)

feeds troll some popcorn :P

[IronicOrnithologist](#)

Maybe you should grow up Demeter'd

Who is the troll? I actually want some popcorn

[lionfish1212](#)

eeeeveryone is trolly today

so much yelling

do we have forum mods?

[IronicOrnithologist](#)

It's not that serious

I think [@gone_farther](#) is going to keep quiet now after showing everyone their ass

gone_farther

it's about how marriage is like death, it takes your daughter away from you

but now we have, like, better customs and we don't do that any more. so. i find different things fruitful than what they were trying to teach, which was mostly "why we have these rites in our Eleusian mysteries".

[IronicOrnithologist](#)

If that is your take away of all of Demeter in the role of Greek mythology I feel sorry for you

Also I suspect your knowledge of mythology and religion to be lacking

Maybe you should take a class

Or five

Rejection without substitution.

How convincing.

[lionfish1212](#)

you're just feeding a troll ironic >_<

stooooooooop

[IronicOrnithologist](#)

Actually you fell right into my trap

IO. Stop. You're verbally beating up a child. Or someone whose capacity for reading the room is that of a child.

Unless lionfish has a point and demeter'd is just a troll.

Lionfish that is adorable

Well actually that is what started this mess

@jadedResearcher

I've answered their substantive questions; they don't. Judge, then, how you will.

lionfish1212

i dont understand what either of you are saying but it seems very angry to me

IronicOrnithologist

You're missing how funny this is

You took an anti-philosophy stance in an argument and tried to use a philosophical concept to say that philosophy isn't important

I'm not going to actually continue because it's very funny

I will actually go over some basic logical fallacies

Now is the time to learn

lionfish1212

/mute ironicornithologist

how do i mute someone

IronicOrnithologist

I want to call this a Circular argument, but it's not even an argument

You don't

right-click and choose 'Block'.

[IronicOrnithologist](#)

It's just an attack on my character

[lionfish1212](#)

but youre not a character

[IronicOrnithologist](#)

Instead of explaining what the problem was, you decided to just tell me to 'grow up'

'Character' refers to your being, in a sense

Who you are as a person

Ad Hominem is the attack of the character of an individual instead of their arguments

In this case, Demeter'd is just an asshole

Somewhat ableist, at that

gone_further

One can also right-click a channel and choose 'Mute channel'.

Alright, guys. Sorry for inactivity, I've been taking a crack at something that's been irritating me for a while, and I've made some progress.

I found a collection of badly-corrupted text documents that appear to be collections of loading screen tips?

They read like loading screen tips, anyway.

IronicOrnithologist

Share with the rest of the class

SmeargleUsedHex

They're sorted by aspect, and into smaller categories within that. So far, I've only managed to fully reconstruct one, for an aspect called Web. Here it is.

https://docs.google.com/document/d/12cx3_4UT5fPdQUX-0az0MScRTu50YxUH2Xm75sdaEAw/edit?usp=sharing

They aren't too broken, just very tedious to put together. I'll post more as I get them readable.

IronicOrnithologist

Perfect for Halloween

SmeargleUsedHex

Wait, shoot. I should've posted that in bread-crumbs.

sierra & sammi

Hey! I think I might be close to fixing my game, but I'm stuck on a few parts. Can I dm someone for help?
-Sammi

IronicOrnithologist

Have you tried turning it off an on again?

sierra & sammi

Haha yes

That's what Sierra keeps telling me to do, but I think my problem goes a little deeper -Sammi

lionfish1212

guys

i had a really bad dream last night after the voice call

it was about zampanio

sierra & sammi

oh no! what happened?? -sierra

lionfish1212

me and lionfish (my companion, not what im called online) were in the mermaid city together, but lionfish was just acting really mean

like i was really little again and lionfish was talking to me like a monologue

i couldn't speak through all of it, i could just nod or shake my head

but lionfish was calling me a fool all the time and saying that i was too underdeveloped to really see what they were and stuff

and that lionfish was actually "beyond my comprehension" and that they were disappointed that after all the time they spent with me that i didn't really see whatever they were

and when i could finally speak i said that i was seeing them right now, and they just turned to me and stared at me with these two eyes that looked so much more realistic than the rest of them and said "good" and then everything turned pitch black around me

like i was trapped in this winding hallway that turned and turned but never ended

it felt like i was in there forever when i woke up

lionfish1212

lionfish said a lot of other things too but i don't know how to explain them

Flippet

well you don't have to if you don't want to; additionally you could just transcribe them.

more importantly, you doing okay?

lionfish1212

yeah

Flippet

good.

lionfish1212

it was just a really bad dream

sierra & sammi

oh yikes

take care of yourself, lionfish

lionfish1212

thank you

SmeargleUsedHex

Did you know that, hypothetically, the number pi contains every written work that ever has, or ever will be written, encoded in every single method of character-to-number encoding, including binary, hexadecimal, and a1z26, that ever has or ever will be conceived?

Food for thought.

SmeargleUsedHex

Also means pi contains the source code of every video game that ever has or ever will be programmed.

You know, if every mention of Zampanio on the internet gets deleted (or otherwise messed with), shouldn't pi technically get deleted too? Technically, it has all of Zampanio's source code in it! Looks like Mr. Inexplicable Force That Deletes Zampanio Content is getting lazy.

attendantWatcher

that is a factoid I think

As in, it doesn't HAVE to be true, there are transcendental numbers which don't contain such info within themselves

aurora borealis

wouldnt this thing just delete any published instance of pi calculated far enough to contain the source, instead of pi itself

SmeargleUsedHex

Fair enough.

If this thing was deleting any instance of pi calculated far enough, this would probably be less of a Discord server and more of an SCP Foundation base.

creeper

maybe random digits are being deleted from pi all the time when the Thing figures out it's source code of some zampanio sim or other and we just don't know because they're too far off

ashdgklsh *zampanio

SmeargleUsedHex

How does one delete a number FROM pi?

creeper

just, like, 3.1415926535 --> 3.14159535

obviously not that short or that far ahead but.

SmeargleUsedHex

Also fair enough.

Although, since computers calculate over time, wouldn't someone notice as the computer types the last digit of Zampanio's code, and then the part that was just finished inexplicably gets deleted? Computers can only calculate numbers so fast.

And how much of Zampanio's source code has to be calculated and typed in before it gets recognized as Zampanio?

Would it predict that a string of numbers is going to be Zampanio and delete it as its typed?

But then, wouldn't people also notice the computer randomly stalling out as it prints digits that are immediately deleted?

lionfish1212

i don't think it's real, guys

this is a creepy pasta

pi is pi

SmeargleUsedHex

Just speaking hypothetically here.

The entire point of this server is to conspiratize. Nothing wrong with debating the logical application of anomalous effects.

J v a k Q t R

hey so I was looking at some Boris Groh art and it reminded me of this quote that... I am pretty sure I heard in zampanio?

I was wondering if anyone else had their game tell them something similar

ughhh I wish I could remember the exact words but it was something like

"When everyone is looking in one direction, look where no one else looks"

like--the concept of, trying to observe what everyone else misses but not following the typical line of sight that rules everyone else

that the real story or the real answer is going to be in the place where no one looks, or with the person no one notices

anyway, this is the art that reminded me of it

<https://www.artstation.com/artwork/3oqbwl>

like, okay. you have these people staring at this giant monster. But the one person who is clutching their head in horror is... looking in the opposite direction. Something even worse is right out of our line of sight, in the opposite direction of where everyone else is looking

.... did anyone else have a moment like that in the game?

gone_further

That sure is a giant monster!

...I didn't see the opposite person until you pointed them out.

Maybe they're looking at us?

That seems standard.

J v a k Q t R

are we the horror then? :sweat_smile:

gone_further

It's an obvious answer.

J v a k Q t R

hmmm.

J v a k Q t R

unrelated, but I think I'm going to bite the bullet and try and contact my brother again

see if he remembers more about the game

[SmeargleUsedHex](#)

Maybe they're just covering their ears.

J v a k Q t R

I haven't been in contact with ANYONE in my family for Reasons, which makes it kind of silly to reach out about a video game of all things but

[SmeargleUsedHex](#)

Implying it's making some kind of noise.

J v a k Q t R

but people tend to look toward the noises that they hear

not away from them

[SmeargleUsedHex](#)

Not if it's loud enough.

Also, maybe they already saw it and looked AWAY in horror. Nothing saying this is the very moment the monster appears.

J v a k Q t R

but then why are their eyes so wide?

if they were flinching or curling away--the reaction would be to close your eyes

[SmeargleUsedHex](#)

Fair point. Just raising theories.

J v a k Q t R

this person is looking at something

that is in the opposite direction of the monster that everyone is looking at

no it's a fair theory! I'm just defending my perspective :sweat_smile:

art interpretation is subjective

[SmeargleUsedHex](#)

Oh hey, just realized both the kid and the monster are looking DIRECTLY at the viewer. Neat.

gone_farther

Huh, you're right. Their heads are slightly angled away but the eyes are on a direct line.

Since we're doing "unrelated, but Vibes" today—

<https://arcadeidea.wordpress.com/category/games/?order=asc>

J v a k Q t R

gone_further

I wouldn't know, I'm not that into video games.

aurora borealis

wait spacewars an actual game and not a loophole for piracy?

sierra & sammi

Sammi and i have started actually playing zampanio! we meant to give an update earlier but we got really absorbed in the game. I'm going to sleep now, but tell you all about it tomorrow :)

lionfish1212

im done with school now so i can talk about the dream i had last night

i still remember and i never remember my dreams

it was better this time

i wasn't my character i was lionfish

and i was in this huge hexagonal room that was full of shelves and doorways

and every time i went through a doorway every room was the same

and when i looked up and down the railings in the middle of a hexagon it just faded into darkness both ways

up and down

i think it was based on a story i read some time

but after i was exploring, someone behind me that i couldn't see pushed me i know it was a person because i felt their hands on my back

and i fell for what had to be an hour down the hexagon past more library shelves i could count

and then i was back in the mermaid city

and then i woke up

jadedResearcher

did you look at what was on the shelves???

lionfish1212

i couldn't read anything

like it was words but i just couldn't read them

jadedResearcher

so shelves of books???

lionfish1212

when i opened a book i could see that there was writing on it, and i could make out letters

but i just couldnt put them into words

and sometimes they'd change when i wasn't concentrating on them

this account doesn't deserve to be a mod, after all

lionfish1212

what?

while i work on that, you can set your account to not have notifications at all for this server! either forever, or for just a duration!

lionfish1212

i don't really understand all the menus on this program

the design is really weird

I SING THE TRUTH

@**jadedResearcher** petition to rename this server "Ancient Italian Video Games/Greek Myths".

SmeargleUsedHex

Uh, why?

That seems highly illogical.

gone_farther

Seems to be the two main topics. :D

This thought was inspired by googling 'Daedalus', for the record.

SmeargleUsedHex

Okay, you got me there.

gone_farther

Castor and Pollux are Greek too!

SmeargleUsedHex

Fun!

gone_farther

You'd think an Italian game would have more Latin myths, but then the Romans liked using Greek culture as well, so maybe some things just never change.

SmeargleUsedHex

Eh, cultural division is fake. Culture as a whole is just one massive echo chamber of people mashing together random ideas other people came up with.

lionfish1212

is everyone okay

everyone's okay right

J v a k Q t R

People like to cut loose and be a little weird on the internet is all

Or, some people.

lionfish1212

but not weird weird

it's fun to be random

like waffles!!! but this isn't waffles

J v a k Q t R

I mean some people like their weirdness to be an edgier vibe--or, you know, they're using their interactions with zampanio as a stress outlet because of real life stuff

lionfish1212

it's scary

J v a k Q t R

:(

okay well, if anyone has been doing anything that makes you uncomfortable or scared for real, I'm sure @JadedResearcher will be able to deal with it if you DM them.

a lot of times people will play act online to try and seem scary, but it's important to reach out if anyone is bothering you

I remember my brother, back when he was living with me used to spam forums with "scary looking text" or weird symbols. I don't really know why, i just looked over his shoulder and he was like, sending these things en masse.

I think he was probably trying to scare people, but it's just because he was going through a really stressful time.

attendantWatcher

Correlation doesn't imply causation.

It all will be more clear later on, lionfish. It's promised. You'll see.

lionfish1212

sure.....

aurora borealis

yeah ive been having trouble following whats been going on as of late. are yall good

krysal said that you're all wrong now

attendantWatcher

It all comes clear now!

And if you know what's good for you, you'll answer the question posed to you!

lionfish1212

you're all all wrong

Flippet

you should leave kid.

attendantWatcher

Now, what IS the question you are asked?

justifiedRecursion

How can I be wrong when there are only right turns???

attendantWatcher

If you backtrace them they're left turns.

Flippet

i'm probably just going to move up to the rafters now, staying here would be very pointless anyway.

lionfish1212

go away

stop

stop

attendantWatcher

Or maybe it's you the one who should run?

lionfish1212

please stop asking me things

you're scary

for real

this isnt a joke you're actually being scary now

aurora borealis

yall remind me of aurora

lionfish1212

mug, this is a game, right? they're doing a roleplay

aurora borealis

i dont really know anymore

lionfish1212

it's just a game

aurora borealis

yeah probably

lionfish1212

krysal is wrong

it's a game

attendantWatcher

Can you define a game?

lionfish1212

i dont want to

attendantWatcher

You need to understand the terms if you want to understand the situation defined by these terms.

justifiedRecursion

Excellent, I can see why we get we get along so fine then. Why tie something as grand as Zampanio down into a little box of definitions???

attendantWatcher

But what is Zampanio?

justifiedRecursion

:) :) :)

lionfish1212

it's a game

it's a computer game

justifiedRecursion

disappointing...

lionfish1212

it's not a roleplay so i don't know why you're acting like this

can you please stop for real

justifiedRecursion

why try to control what you can not??? control stops at the borders of your own skin!!! control yourself:
if you let yourself go you will realize you understood this all along!!!

lionfish1212

why do you think that

i want to understand

what told you that

attendantWatcher

Oh, you can control it all, if you know how to.

lionfish1212

how

what happened

what happened to you

attendantWatcher

As if you don't know.

You know.

You have always known.

lionfish1212

tell me

in words

i want you to tell me

Daedalus

Hi

aurora borealis

your next line is "blink" right

Daedalus

blink

attendantWatcher

How utterly predictable.

SmeargleUsedHex

The lionfish needs help. You need help, don't you? I apologize for the loss.

lionfish1212

why are you all talking in questions

did you coordinate this

was there another voice call

SmeargleUsedHex

There is no coordination. I'm fine. All right, sea lion.

lionfish1212

krysal was right

SmeargleUsedHex

Are you okay, fish lion? He looks angry. Looks like he's worried. It doesn't have to be. This is good.

attendantWatcher

Lionfish.

lionfish1212

what

what do you want

you can't turn me into whatever yeerk think took over you

SmeargleUsedHex

Do not try to injure yourself. You just want to feel good.

lionfish1212

you sound like you're from the hunger games and you want to mind control me

attendantWatcher

I am merely correcting Hex.

SmeargleUsedHex

There is no control of one of the left games. That is misuse, not control of one. Pavlov playing dog.

sierra & sammi

Sammi hasn't been in all day, should I play without her? :))

SmeargleUsedHex

Zampanio is a very good game. You should play it.

attendantWatcher

Most definitely.

SmeargleUsedHex

Zampanio is a very good game. You should play it.

aurora borealis

hey lionfish can i DM you

lionfish1212

yeah

aurora borealis

cool

I SING THE TRUTH

Zampanio is merely the tip of the iceberg, a tangent so gently touching the true madness broiling just below the calm surface.

SmeargleUsedHex

Cat water, you seem nerves. You are all right?

I SING THE TRUTH

I am more right than I have ever been

lionfish1212

mug

aurora borealis

yea whats up

lionfish1212

are you still okay

aurora borealis

oh i havent touched it yet lol

im still fine

lionfish1212

you can still not do it

just don't play

aurora borealis

only way we're gonna find out for sure though right

SmeargleUsedHex

Are you okay, Lion Fish?

lionfish1212

leave me alone

SmeargleUsedHex

):

J v a k Q t R

just backread and geez you guys are being dicks to lionfish.

J v a k Q t R

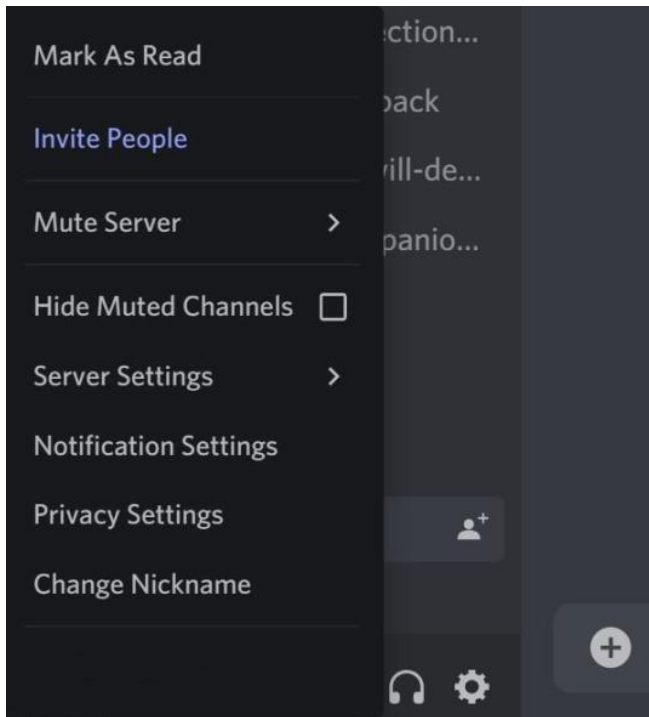

I'm sorry everyone is being like this. Do you need help navigating discord to leave the server?

Again, don't feel pressured to put up with anyone else's shenanigans if they're making you uncomfortable.

are you on desktop or mobile? If you're on desktop, you can right click and it will open a menu. There is an option to leave the server in red at the bottom.

J v a k Q t R

Like this!

oh wait hm it seems there's a glitch

[lionfish1212](#)

what?

J v a k Q t R

okay look, don't freak out lionfish. It's there, I'm just having some computer problems at the moment

[lionfish1212](#)

okay

sure

okay

Flippet

i am so fucking upset.

i am so fucking upset.

SmeargleUsedHex

Catfish is mean. Why do you mad me? I just want to be good to and help):

lionfish1212

you want me in your weird brain thing

krysal told me about it

its like yeerks its in your brain and you want me to do it

SmeargleUsedHex

I only be nice. I do not fish lions. You are Not nice!):

Flippet

that's it.

i refuse to be part of this narrative.

SmeargleUsedHex

):>

attendantWatcher

You already are.

Flippet

observe.

SmeargleUsedHex

You are funny, nine tee.

Krysal Tepsyr

finally.

i've been scouring across time for this in my spare time and finally, i've gotten something i can latch onto.

i think this is as close to "original" as i can get.

will be getting into a suitable location and getting this running. i'll share findings.

J v a k Q t R

You found a copy of the game??

Krysal Tepsyr

close as i can get to a copy, yeup.

more details later. i gotta get going.

TunnelGhost

speaking of discoveries, check out what i found!

yeah... it's not exactly Zampanio related, but what a blast from the past!

jadedResearcher

This is why you are Simply The Best at finding Zampanio inside Roblox!!!

TunnelGhost

now that i'm home i should have access to my laptop's backup folder. for whatever reason i only thought to save the documents folder before everything went kaput. i'll let you know if i catch anything in that folder. maybe playing Aldacre again will jog my memory.

jadedResearcher

:) :) :)

J v a k Q t R

Man there is a lot going on here today

crimsonDestroyer

oh shit we're gonna play roblox?

sorry guys, i forgot this server existed. life's been a bitch

yeah, i'll take any excuse to screw around in roblox

attendantWatcher

A lot has happened.

[IronicOrnithologist](#)

I'm bringing some friends

Agent Moon

Hello please meet my friend Denzel

[IronicOrnithologist](#)

Heheheh

Agent Moon

:bongospies:

J v a k Q t R

Wait guys guys guys

My brother!!!

[IronicOrnithologist](#)

Cool

:Jose:

J v a k Q t R

He found me!

[justifiedRecursion](#)

Congratulations!!!

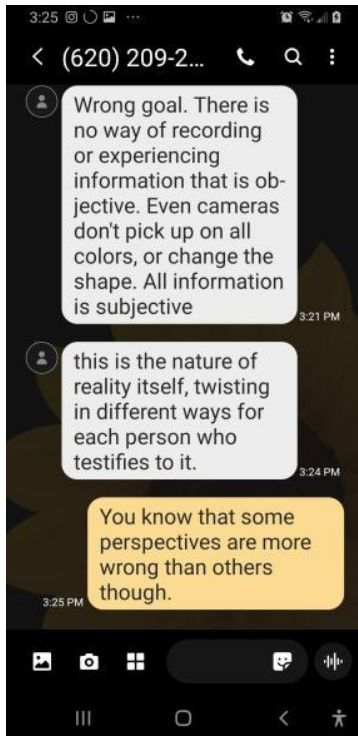

Agent Moon

Congraturaisins

attendantWatcher

Omedetou.

J v a k Q t R

My brother would fit right in with you guys :/

(We're still catching up)

J v a k Q t R

he has our copy.

lionfish1212

mug i havent heard from you

have you played

mug

dang it

aurora borealis

oh im at work lol probably should have said that

lionfish1212

tell me when youre actually starting

i'm worried

aurora borealis

aye aye boss

lionfish1212

especially if i cant convince you not to

gone_farther

Oh that's brillaitn! :D

*brilliant

J v a k Q t R

I'm so glad he's okay!! albeit, as weird and edgy as I remember him XD

gone_farther

Some peoplle just don't grow up :D

some, say mminotaurs.

kuramon

he's Like That and i can respect it tbf

gone_farther

apologies, nonminotuars.

J v a k Q t R

he sent me the game.

or, a file he says is the game.

maybe it'll end up being some dumb prank of his but either way!

I'll find out tonight

kuramon

if it's an exe file be careful??

i don't know how if he'd send suspicious links Just Like That but if the game's there then :eyes:

gone_farther

I should be careful with the file, because even though he's your brother, he seems like the sort who might try to hurt you?

He might think it was edgy to send you a virus file.

kuramon

virustotal it but he's also like

targeting the most niche possible thing

J v a k Q t R

this is not... an entirely unreasonable assessment

J v a k Q t R

okay I did and

The screenshot shows a VirusTotal analysis page for a file named '4864d8.msi'. The file size is 64.46 MB and it was uploaded on 2021-09-12 06:12:24 UTC, 13 days ago. The file is associated with the MSI vendor. The analysis shows a green score of 58/58, indicating it is safe. The file is undetected by Ad-Aware and AhnLab-V3. The file's metadata includes 'checks-usb-bus', 'direct-cpu-clock-access', 'msi', and 'runtime-modules'. The file's SHA-256 hash is d87fc0d89839ad73857ee15ee417d26ca9ba1c9d0cd15cc54d90cb1484a95fca.

..... says it's fine.

gone_farther

Hmm!

J v a k Q t R

nothing sus about this :sweat_smile:

maybe it's my internet connect that's causing some text and such to glitch out today. but.

it does say it's fine

gone_farther

I guesses...

I really don't want you to get hurt. :(Or for your computer to stop working!

J v a k Q t R

yeah I do need my computer. For work and stuff.

it's probably nothing. Even if he hid some weird virus file it's probably...

well, it's probably not demons getting ready to come out of my computer to possess or hurt me, in spite of the superstitious upbringing burned into my head XD

gone_further

XD prrobably not!

J v a k Q t R

again, more likely that an edgy younger brother throws a jump scare in than... that. Hear hoofbeats, think horses not zebras

gone_further

Thats a wise advice!

I SING THE TRUTH

I'd be more wary of Daemons than that. In probability you are not currently plagued by them currently, but that is no reason to extend such a risk.

J v a k Q t R

You know, I don't believe in demons (anymore) but I appreciate you looking out for me floorthullhu. Thanks for the advice.

...I'm gonna take a minute and then install it.

Maybe if it 1) doesn't crash my computer 2) isn't "demons" and 3) is functional and any good outside of nostalgia, I can pass it along and then actually talk about the actual game XD

okay okay okay.

here I go!

gone_further

:fingers_crossed:

J v a k Q t R

Jesus Alf what that's not OK give me a minute

At Demeter I mean at Go far I mean

It it's ACC seize C seizure riseizure risk I maybe

Goddamn Matt set me up of course sorry they were their flu flashing

Look lights

J v a k Q t R

Eyes

It it's still on but AA and 4 the flashing

Is Ah is anyone on

Here here anyone

jadedResearcher

I'm glad you got to play :) :) :)

J v a k Q t R

At JJJ did

God damn it You you fucker worst the worst

At go far at everyone look it's I need AIA I mean a You won't believe me but

Listen it's

Guys I'll need I mean I found out uh you won't believe me but

[lionfish1212](#)

bloop?

bloop are you still there

you werent strange

you were okay but now you seem strange

is anyone else still okay?

please

kuramon

i'm still here, idk about bloop o7

what's up?

lionfish1212

are you weird?

attendantWatcher

Define weird.

kit [ey/em]

i don't think kuramon's weird

lionfish1212

do you even get it

the whole world's going crazy

do you even see it

everyone who's ignored it has just gotten worse

i'm trying not to be like that but im afraid i'm going to be like that and i'm going to just be like everything else even though it's not supposed to be like this but i cant do anything about what happens to me

kuramon

everyone's been acting a little Out There but i don't think i'm weird o7 not yet

if you want people acting crazy check bread-crumbs tbh

lionfish1212

it's all gonna be like that, you know that?

that's what fate looks like

that's a mirror

kuramon

everyone's supposed to act like that in the end?

lionfish1212

everyone has been

i don't know how anyones supposed to be able to escape

SireKardis

I've been busy, why do we want to escape?

kuramon

if you backread some of the channels you can like. See Everything Going to Shit

it's been one person at a time and i didn't think anyone else noticed until now?

lionfish1212

you should go

i don't think this is a good place to be in

kuramon

LMAO yeah i might leave but not yet

it was a pain trying to find this server/anything about this game x)

SireKardis

Yeah, but did you read testimonies

kuramon

sunk cost fallacy i guess and honestly i wish i didn't

and zampanio's a good game

if there's still time to get out i'll get out

SireKardis

That sounds like a good plan, Kuramon.

kuramon

yeah but not right now though i'm probably gonna fuckin miss that by waiting too late

lionfish1212

just go now

please

you probably can't but you have to

kuramon

i'll find what i want to get and then i'll leave, how come you haven't left?

zampanio's a good game there's stuff worth finding

lionfish1212

i can't it doesn't even work i think it's bugged

or not bugged

it's not bugged

you're already gone saying that

SireKardis

Kuramon isn't gone he's right here.

lionfish1212

so was justified

so was everyone

SireKardis

Everyone just got a little weird. It's not Zampino's fault though. How could it be?

lionfish1212

it takes you

i don't know what it's called but it makes you it

like a virus

SireKardis

It's a game though?

Maybe something just happened outside of the game, Lionfish

kuramon

if sammi went missing irl then i don't know how the game fits with that?

lionfish1212

just leave i dont even care if you dont believe it

kuramon

it's weird though i've seen a couple things from the game but nothing that'd send people looking for crazy shit

SireKardis

Yeah

gone_farther

oij wioll i lwil i willl

gone_farther

di ii it get worse ofr bettew or

sierra & sammi

Hello friends :)

Sorry that i have not been active of late, i am afraid to stop playing

But do not worry :) zampanio is a good game :) there are worse fates :)

SmeargleUsedHex

Which class do you like to play in the most?

Krysal Tepsyr

i will always at my heart be a lord.

ЗАМПАНИО =D

lionfish1212

fell asleep doing my homework and i had the dream again lionfish was clearer to me than ever before she told me that i was too early and if i was just a bit older then i could have really done something but i didn't recognize lionfish at all

i want to run away

i want to get out of my house and be down the block before my dad or my mom or my dog can notice and just

i don't know

maybe i would die in the woods to a bear

maybe i could pretend i'm older and get a job or something

maybe nobody will be able to recognize me in an hour because that's what it does to you ive watched so many people be different overnight and i havent been able to do anything

and you all swear you're exactly the same you don't even see how horrifying it is to be different than you are

or i'm just growing up and everyone else already knows that? i can't ask any of my friends about it because they'll think i'm crazy and it's not like any of you are going to help

i wish someone understood but nobody gets it i feel like i'll be alone forever just being told things that don't make sense over and over again and just reacted to with a weird custom bbcode closed eye forever

i don't even care

i have algebra homework
