[IronicOrnithologist](#)

Thank you

[lionfish1212](#)

okay!

[IronicOrnithologist](#)

Anyways

It had this whole thing

About Wheatley as an AI

Not actually being an AI

Instead, like Caroline in Portal 2, was a real human being

Whose brain the cut down and compressed

Into a digital program

A human brain -a human being- compressed

[lionfish1212](#)

isnt portal 2 pretty new?

[IronicOrnithologist](#)

Yeah

In Valve time

Anyways

He's entire life was ended

He stopped being a person

[lionfish1212](#)

only a year!!! o.o

[IronicOrnithologist](#)

Because all the other scientists thought

“Hey, look at this nimrod!”

Then stuffed him in a tiny little ball

Compressed this smart guy who was a bit off into being this little spherical moron

His life ended

He was murdered

His mind was damaged

Damn, they really do be doing Nerodivergent people like that

[IronicOrnithologist](#)

They do!

They do

<https://m.fanfiction.net/s/7434133/1/Blue-Sky>

They really did Chell dirty by sticking her with Wheatley

I never did like how they wrote her in this fic

[IronicOrnithologist](#)

Chell was so... stubborn in the games.

I don't know if that is the word I'm looking for

**I SING THE TRUTH**

I mean, she did fight her way out of an unsurvivable death maze of a laboratory so...

She's pretty tenacious

[IronicOrnithologist](#)

Yeah

Spiteful

**I SING THE TRUTH**

And then gets insta clapped by the combine

[IronicOrnithologist](#)

Determined

?

**I SING THE TRUTH**

Isn't Portal in teh HL2 universe?

[IronicOrnithologist](#)

I think Chell was fine at the end of Portal 2

**I SING THE TRUTH**

Or is that just wild BS

IronicOrnithologist

Yeah

But

I think she would survive

I SING THE TRUTH

Then yeah, she escapes and thirty seconds after credits roll the Combine show up

IronicOrnithologist

Also we don't know the time period

They could theoretically all be gone

I SING THE TRUTH

Fucking, dropping Combine Elite from the top of the Citadel

IronicOrnithologist

Anyways

I feel like Chell was too tired in Blue Skies

I SING THE TRUTH

"I'm too old for this shit"

IronicOrnithologist

Not a big fan of her not being disabled

I just can't see Chell as that

I see her willing to die for what she believes

And to stare you down while she does it

I SING THE TRUTH

? Did Chell have busted legs or something?

IronicOrnithologist

Mute/non verbal

I don't like it when they have her speak

It's just a little insulting

Does that make sense?

I SING THE TRUTH

Oh they actually had an explanation for the silent protagonist thing?

[IronicOrnithologist](#)

Yes

I SING THE TRUTH

I just assume they did her like they did Gordon

[IronicOrnithologist](#)

I believe Gordon is also mute/non verbal

I SING THE TRUTH

My man got three fucking PhDs or whatever without a word

[IronicOrnithologist](#)

Yes

Mute and nonverbal people exist

Anyways

People who make degrading jokes about Chell not speaking or make her speak in their transformative work

Seem, to me, like they fundamentally misunderstand the character

I SING THE TRUTH

Valid

[IronicOrnithologist](#)

Regardless of whether or not it is a choice for her not to speak

I think Chell, if she were able to speak, would choose not to

I think making her a donut girl is kind of sad

The way they wrote that job for her

As not something she really wanted to do

I SING THE TRUTH

They done made Chell an intern?

IronicOrnithologist

Worse

Donut delivery person

I SING THE TRUTH

An unpaid intern?

Oh off

oof

IronicOrnithologist

Yeah

It's not very... Chell

I SING THE TRUTH

I mean, don't underestimate Service workers

But still

IronicOrnithologist

Chell doesn't really exist as Chell in this story

I SING THE TRUTH

Fair, but that's a problem endemic to a lot of fanfic

IronicOrnithologist

It's not about the job so much as the Jobs connection with Chell

Yeah

I SING THE TRUTH

Some characters are just hard to write, or the fic author isn't interested in a certain character

[IronicOrnithologist](#)

It's a shame, as Wheatley is quite good in this story

Surprisingly it's a romance between Wheatley and Chell

**I SING THE TRUTH**

Okay then

[IronicOrnithologist](#)

Chell exists in this weird state in this work

Not exactly fandom stock character, but not exactly Chell, either

It's a bizarre interpretation of the character

They do have some understanding of the character

But the fanfic does have her performing the actions of the "stock character"

The tropes that make up the collective OOC

You know what I'm talking about?

It's not the character, it's the idea of the character

Being puppeted around

**I SING THE TRUTH**

Yeah

They done Weekend at Bernie's'd Chell

**jadedResearcher**

i hate it when fanfic does that

but it sounds like a shambling horror now that im thinking of it

**J v a k Q t R**

okay okay potentially controversial but what are the thoughts here on the uh, 'flush them' decision

or, wait, if that's too heavy, what's your guys' favorite ships

**J v a k Q t R**

give innnnnnn

**jadedResearcher**

you mean the whole war crime on non combatants?

[IronicOrnithologist](#)

Temmp

**jadedResearcher**

like, on the one hand ,WAR CRIME

but on the other theres v little ways to ensure a yeerk isnt ten seconds from becoming a combatant if things go wrong? more like denying ammo to the enemy? except memory says theyd basically already won by that point

also i literally cant parse ships for animorphs, the romance just did not catch me at all when i read it

**J v a k Q t R**

I mean I would argue--if the yeerks were there, on earth in that vessel, it was because they were there to help out the invasion

Which means they aren't non combatants

They're soldiers who have not yet been deployed

But also ughhhhh I'm not. Really convincing myself either.

I think that--Jake did not have to do it to win, is what we found out. So I think because of that I'd have to condemn it just for excessiveness... but also demanding that people fighting back against enslavement have to Play Nice doesn't track....

**jadedResearcher**

i mean i dont have my gebeva conventions memorized or anything but i guess you have a point re like it'd be okay to bomb sleeping soldiers???

**J v a k Q t R**

I dont know guys! I'm still thinking about it.

**jadedResearcher**

yeah in the moment I don't think jake knew how much would be needed to save earth

**J v a k Q t R**

That's the thing

**jadedResearcher**

a lot was happening, adrenaline everywhere, i dont think surrender had happened yet

animorphs is such a weird childrens series to spark war ethics debates

**J v a k Q t R**

I think my own morals are that it's never right to do more than necessary in self defense, but my personal understanding is that the way violence plays out is that fighting back usually doesn't give you the space to be Precise about the amount of force you use

So excessive force and disproportionate retribution are Inevitable

**jadedResearcher**

yeah and also like, it cant be ignored that jake was a literal child soldier with no training, no command above him, just actively being in the field and calling the shots

**J v a k Q t R**

Yeah :(

**jadedResearcher**

i think its less useful to say "did jake do a moral thing" and more useful to say "is it possible to be moral fighting for the literal free will of your ppl against aliens that SIGNIFICANTLY out gun you"

**J v a k Q t R**

Yeah exactly

**jadedResearcher**

like, what DOES a moral victory against the yerks even look like?

**gone\_further**

jake in that moment does not think it was needed to save earth, he thinks "rachel is defintily going to die and maybe if i throw enough balls in the air one of them twill knock that off course" and then this isn't enough to movtivateate him to kill thousands of helpless people so he goads himself with outright racism

no one ever asks about this being 'axs fault, which is weird when otherwise no one is like "just following orders!!"

**J v a k Q t R**

Yeah I remember Jakes internal monologue was pretty ugly

**jadedResearcher**

oh yeah absolutely he wasnt in a moral headspace there

**J v a k Q t R**

(Although I wonder if you could call it racism against yeerks, from my understanding racism is only such when it is from an empowered group to a disempowered group)

**gone\_farther**

like there's a difference between every other time they kill yeerks and flushing the pool ship

**jadedResearcher**

but that brings me back to my point: would anyone have been? talk of good or bad is useful in identifying what you should do in the future? jake did a Bad, in my opinion, and thats just that. but i dont think its a bad he should be condemned for, if that makes sense?

**gone\_farther**

They're sort of—about to be?

**jadedResearcher**

it shouldn't be lifted up as a thing to aspire to or anything

**J v a k Q t R**

I think that makes sense yeah

**J v a k Q t R**

Yeah good point

Which also points to, probably, problems with that particular definition of racism or prejudice maybe... power dynamics can shift

**jadedResearcher**

i find jakes bigoted headspace about yerks interesting when the series has already gone out of its way to establish some yerks are anti war hell, even some of the "cannibal death worms" (taxons?) were?

**J v a k Q t R**

aftran!

**jadedResearcher**

shades of gray were the whole point of tge later arcs, but in a dark moment jake lets himself go black and white

**J v a k Q t R**

Aftran the love of my life <3

**jadedResearcher**

lol

was that tge andelite trapped in taxon form?

**J v a k Q t R**

No no although he is also the love of my life

Aftran is the yeerk that initially tried to kill Cassie and then got de radicalized instead and ended up becoming a figure in the yeerk peace movement

**jadedResearcher**

the one she let take her over?

**J v a k Q t R**

Yes

Cassies decisions were SO impractical in that book

**jadedResearcher**

and in a moment of supreme trust and vulnerability, they let her go let her decide their fate

**J v a k Q t R**

But I loved seeing the whole... two entirely different species, sides of a war, having a moment of dialogue

Coming to an understanding because Cassie was willing to be vulnerable

**jadedResearcher**

it was such an entire arc

animorphs was just so weirdly deep for what it was

**J v a k Q t R**

It was!

**jadedResearcher**

a ghost written mass produced "for kids" series

**J v a k Q t R**

Yeah!

I think it was because of a lack of... executive oversight?

Apparently the publishing company was going under and they had to churn out the books so fast there wasnt time for higher ups to go "no you cant have that"

**jadedResearcher**

what a beautiful world

plus , by the time it started going dark and complex it was so popular they couldnt risk it

**J v a k Q t R**

Which really makes me think about a lot of series like SU these days and how the ideas they espouse are probably heavily influenced by what is allowed to be shown

**jadedResearcher**

oh absolutely

like, the artistic weight of "ruby wore a dress and sapphire didnt so we could FORCE ppl to not retcon ruby to be male"

**J v a k Q t R**

Yeah exactly

**jadedResearcher**

art is shaped by the culture its created in

which is what makes alt timelines so fascinating

what would steven universe have looked like in a society with significantly more or less acceptance of lgbtq etc

**J v a k Q t R**

Yeah!

**J v a k Q t R**

Ahahahha yeah that's sensible, the themes sort of outshine the romantic relationships

~~shoves my cafran fic under the rug~~

**jadedResearcher**

lolol plus i really need to reread it? i didnt really start parsing ANYTHING real or fiction as romance till college romance was just "that thing to ignore"

i remember tobias and rachel dated??? cassie and jake???

**J v a k Q t R**

I will say that I actually started to find Jake and Cassies relationship pretty interesting once their ideals started to pull them apart

Like at first I was like "oh, they're cute so guess, ignore like most romance in genre books"

But then in the later books when Jake gets more militant and Cassie makes some decisions like letting the cube go due to her own ideals... it seemed like a pretty realistic breakdown of how people who love each other might fall apart due to different morals and the stress of the situation

**gone\_farther**

Cassie and Jake dramatically kiss at the climax of book 26?

It has plot significance.

also - cafran?

Current mood: reading about The Mare Crisium Soviet Socialist Regency trying to decide if it's actually interesting or just obscure.

Or pretentious.

I mean it's definitely pretentious, but is it also interesting?

“To respect the privacy of the members of The Soviet, \*none\* of the material present on The Soviet is ever backed up, with the only exception of system files. Consequently, each user is responsible for using a backup solution of their choice, if they wish so.”

exempli gratia.

**gone\_farther**

Not what I was talking about, but okay.

“The Archaic Collection of Anomalous Brainchildren is one of the most famous, ancient, and precious libraries of the Circumlunar colonies.”

I am still unclear what 'circumlunar' means, but I suspect it's just a fancy way of saying 'on Earth'.

**jadedResearcher**

or around the moon?

**gone\_farther**

Oh, that's why so many of these were forcing line breaks: because otherwise they just run straight off the screen.

**gone\_farther**

The "Regency" does not otherwise claim to be aliens, time travellers, or in any other manner in orbit around the Moon itself. Thus my prediction that they mean 'around the Moon' in the sense that the Earth, from a strained frame of reference, orbits the Moon.

“Have you ever stopped and taken a moment to think about this planet? And how significant it is that everything we know, everything we have, and everything we have ever been is centered squarely on this individual planetoid?”

Like even Discord forces line breaks. C'mon.

"Text in Gemtext documents is written using "long lines", i.e. you (or your editor) shouldn't be inserting newline characters every 80 characters or so. Instead, leave it up to the receiving Gemini client to wrap your lines to fit the device's screen size and the user's preference."

Yes good!

**gone\_farther**

“Gemini servers do not inform clients of the size of files they are serving, which can make it difficult to detect if a connection is closed prematurely due to a server fault. This risk of this happening increases with file size. Gemini also has no support for compression of large files, or support for checksums to enable detection of file corruption, the risk of which also increases with file size. “
